

POST-PLANTING INSPECTION
RECORD FOR WOODLAND COMPENSATION

Inspection Date	26 June 2023	Time	0830 - 1100	Inspected By	Project Proponent's Rep.: Toby Li ET Rep: Ana Ng IEC Rep.: Mike Pang Contractor's Rep.: -
Site Location	Ocean Park Water World				

Species for Woodland Compensation Post-Planting Inspection:

General health condition of individual plant species (good/ fair/ poor/ dead)

% of individual plant species in poor health condition

Survival rate of individual plant species (%)

Photo/ Remarks

Pioneer species

% of planting area inspected: 70

Acacia confusa

Good	0	100	1
Good	0	100	2
Fair	6.9	95.7	3-4

Ficus hispida

Pinus massoniana

Sub-climax species

% of planting area inspected: 70

Brucea javanica

Good	0	100	5
Good	0	100	6
Good	0	100	7
Good	0	100	8
Good	0	100	9
Good	0	100	10
Good	0	100	11
Good	0	100	12
Good	5	100	13-14

Cratogeomys cochinchinense

Ficus variegata

Macaranga tanarius var. *tomentosa*

Mallotus paniculatus

Polyspora axillaris

Rhus succedanea

Schefflera heptaphylla

Sterculia lanceolata

Climax species

% of planting area inspected: 70

Celtis sinensis

Fair	0	100	15
Good	0	100	16

Choerospondias axillaris

Other Observations & Recommendations (including any maintenance works as necessary)
